

Product / Service

Details describing the products or services offered through the platform

Aspirom Technologies Pvt. Ltd. operates **OLOPO (Our Loyalty Points)**, a rewards-driven digital platform designed to connect consumers and merchants within a secure and trusted commerce ecosystem.

OLOPO Customer Club (OCC)

OLOPO operates through a unique community model called the **OLOPO Customer Club (OCC)**.

OCC is a **closed community network** where users can join the platform only through a **valid referral code**. This controlled access model helps maintain trust within the ecosystem and significantly reduces the risk of **fake accounts, fraudulent activities, and misuse of the platform**.

The community-based structure encourages users to invite **known and trusted individuals**, creating a more reliable and responsible digital network.

Customer Rewards System

The platform rewards users for their everyday spending through a transparent loyalty system.

- For every **₹25 spent**, customers earn **OLOPO Loyalty Points (OLP)**.
- **1 OLP = ₹1**, which can be redeemed within the OLOPO ecosystem.
- Users can also utilize **OLOPO Shopping Points (OSP)** for purchases across participating merchants in both **online and offline environments**.

Merchant Services

OLOPO provides merchants with a complete digital commerce support system to help them grow their business and reach new customers.

Merchants joining the platform receive several benefits, including:

1. **Lifetime Free Merchant App**
Merchants can use the OLOPO merchant application without any subscription fees.
2. **Marketplace Listing**
Businesses can list and sell their products through the OLOPO marketplace, enabling both **local and online sales opportunities**.
3. **Advertisement Facility**
Merchants can promote their products, offers, and brand visibility directly within the OLOPO ecosystem.

4. **Discount Coupon System**

Merchants can create and distribute digital coupons and promotional offers to attract customers and increase sales.

5. **Free EDC Terminal Support**

Merchants can integrate with Pine Labs EDC machines through OLOPO's Value Added Service (VAS) system, enabling seamless digital transactions and reward integration.
